Volume 2 from Decra Led - Putting more flair and style..

The first brochure introduced you to
the wonderful world of Decra Bevels.

The response has been nothing short of remarkable,
so we have responded in the only way possible - by
creating more exciting designs, to complement the
existing portfolio, showing how versatile
Decra Bevels can be and giving you even more
design opportunities.

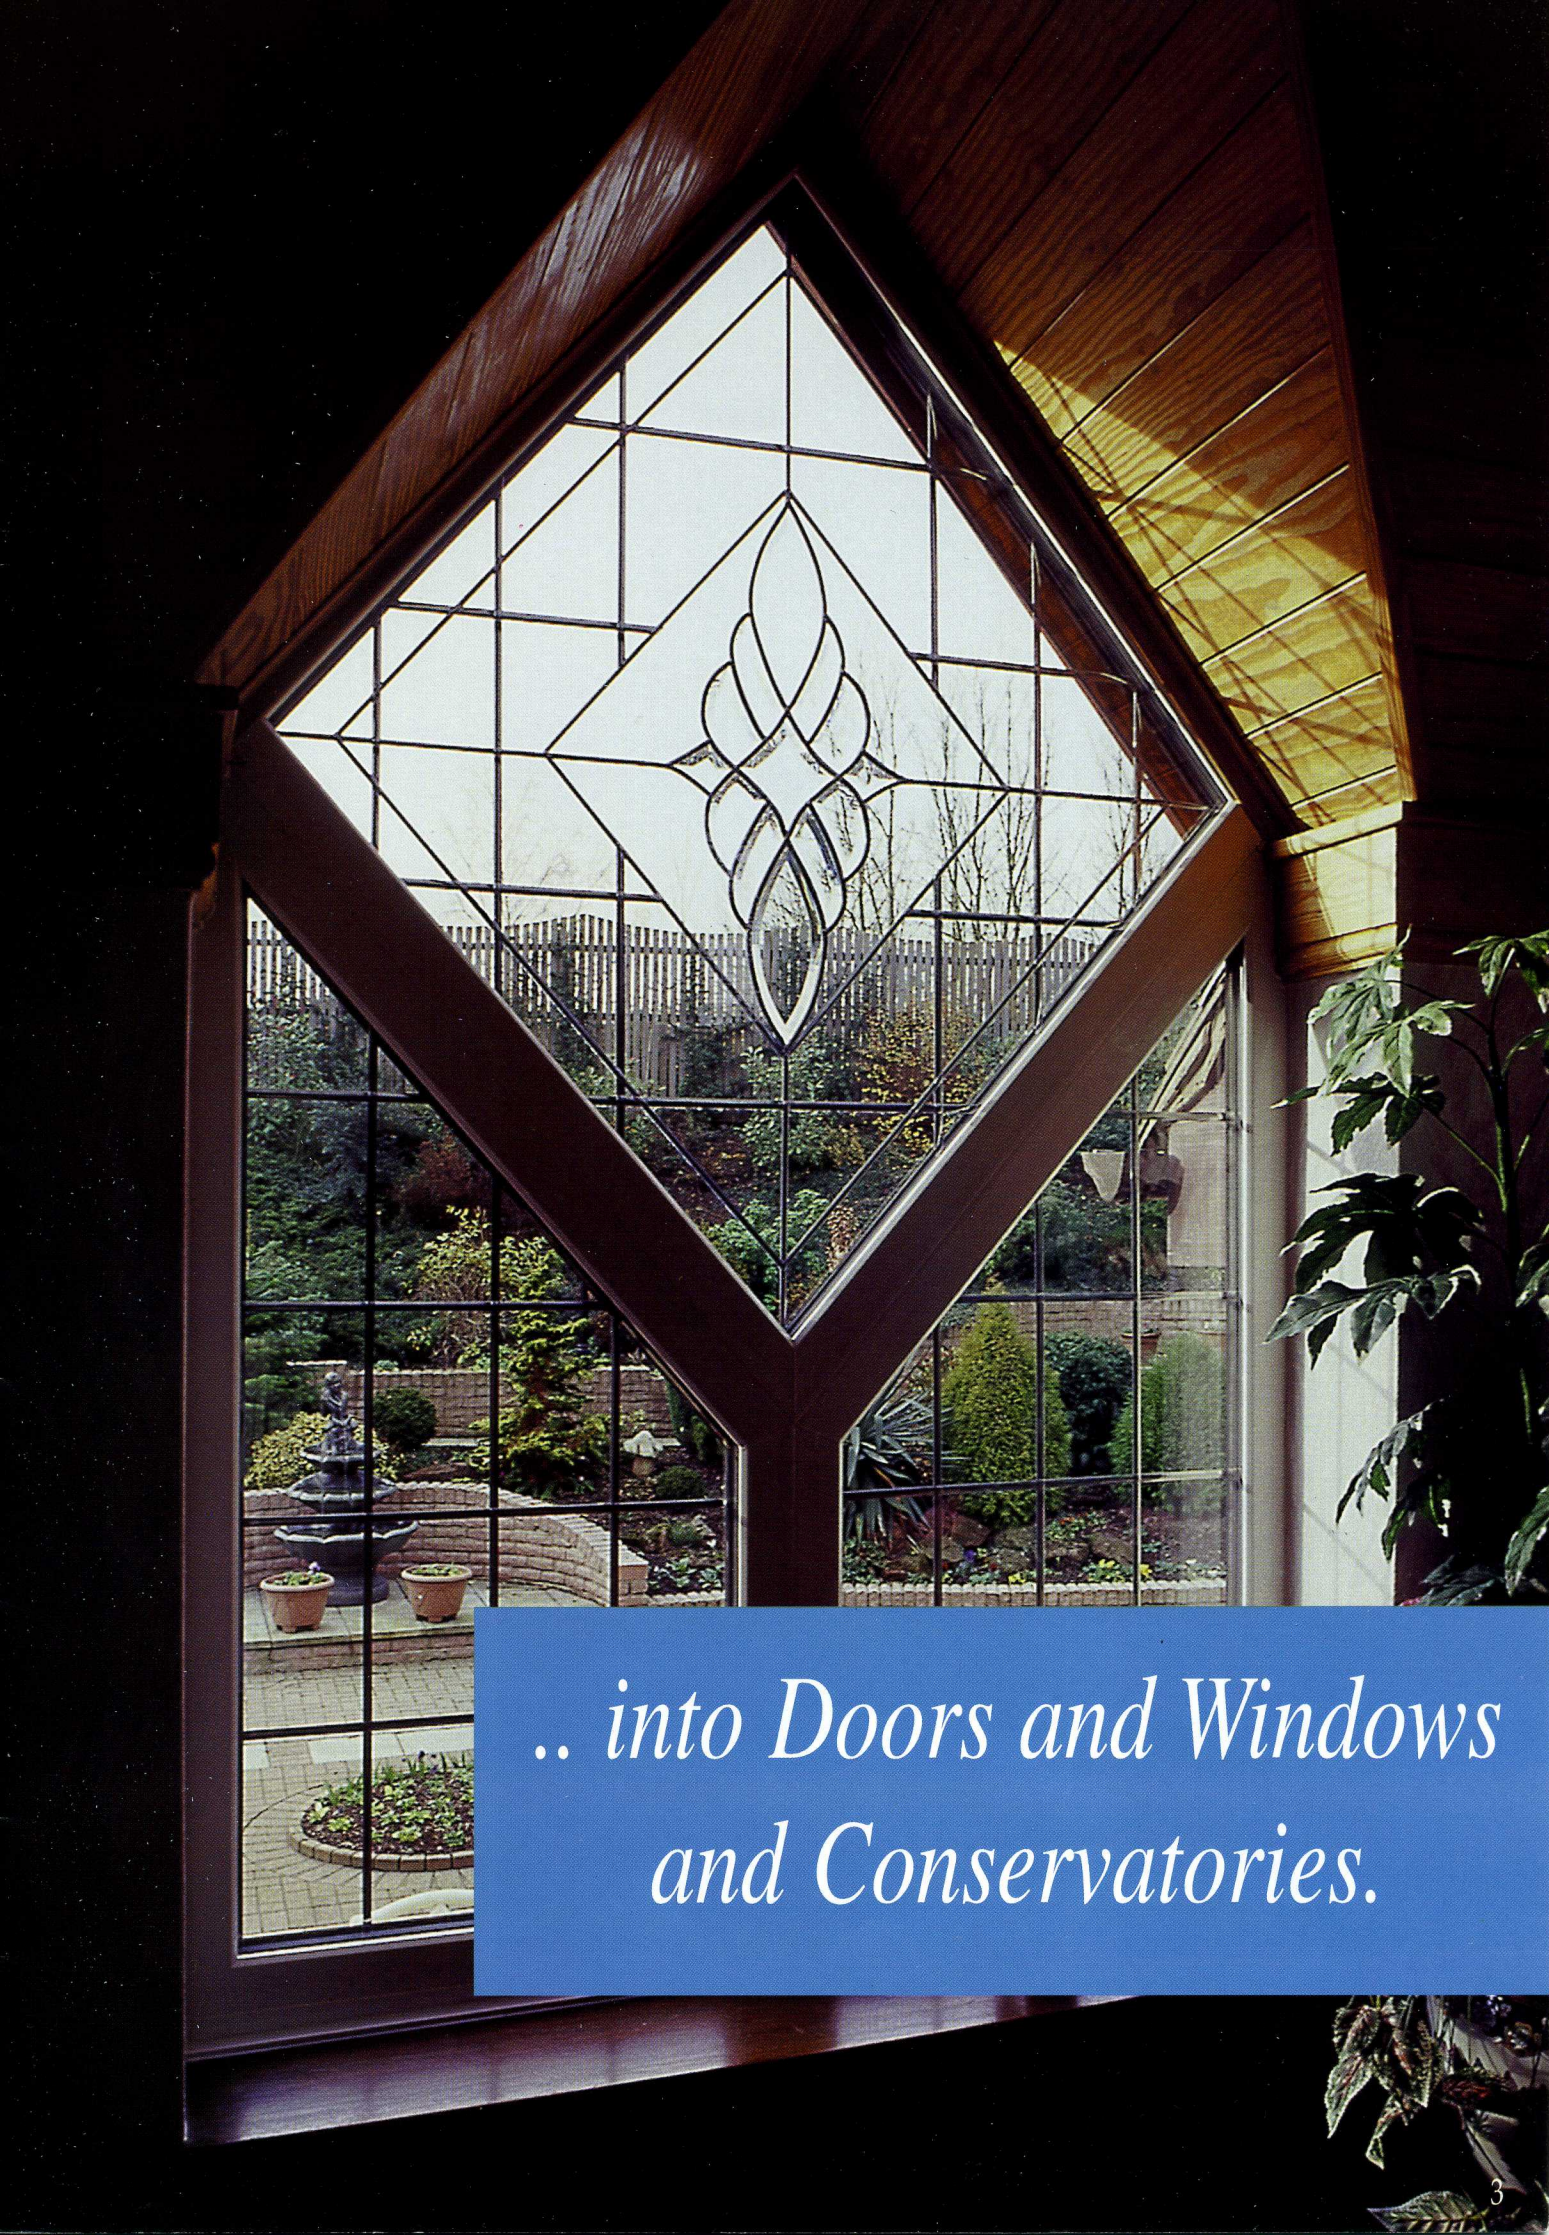

Glass panels that combine elegant bevelled glass
clusters and shapes with striking colours, including
our unique marbled finishes and subtle texture and
frosted effects.
